Pedestrian Crossings

If the crossing goes straight accross the road (even when there is a central refuge) treat it as a single crossing.

If the crossing is staggered treat it as two separate crossings.

Flashing Amber Phase

Pelican crossing

If crossing is divided by a central island, treat each half as a separate crossing.
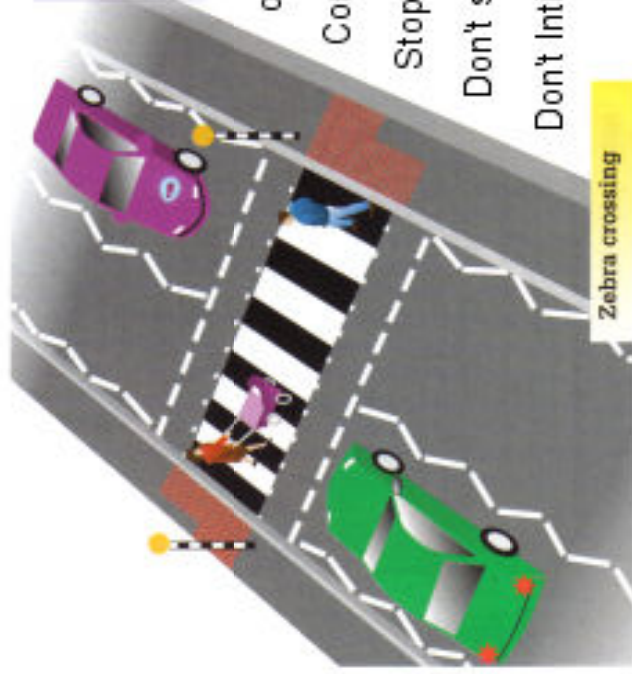

No parking or overtaking on zig-zag lines.

Consider using arm signal.
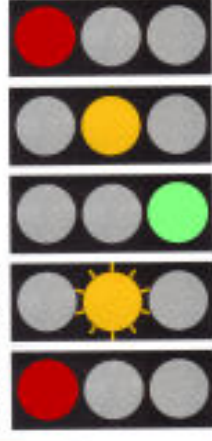

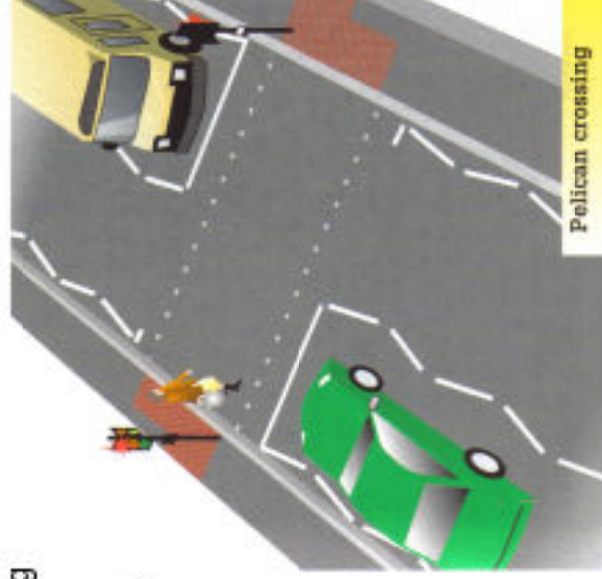

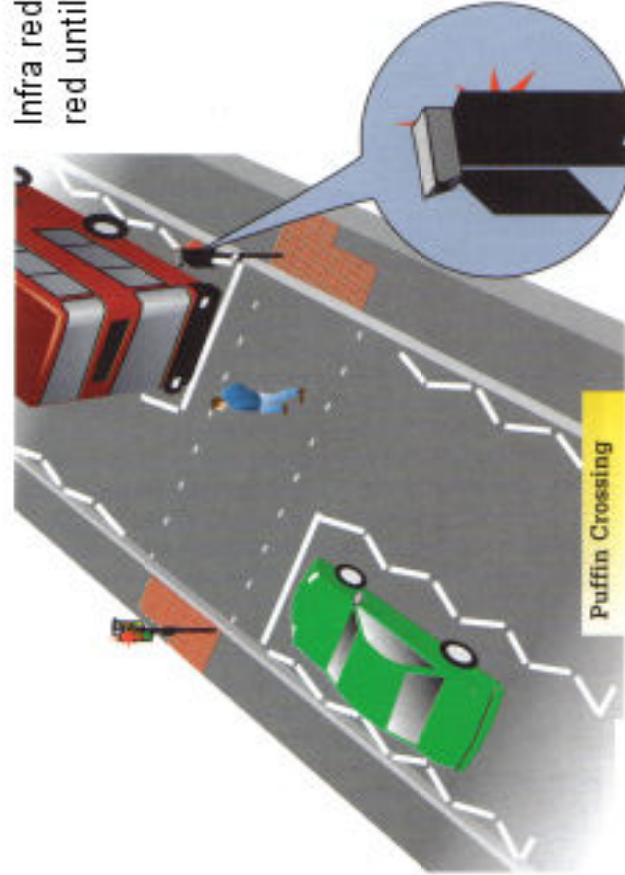

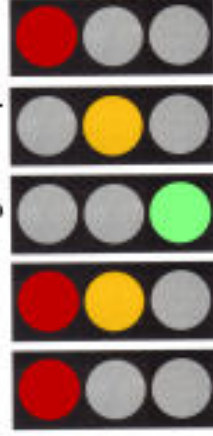

Stop before give way line.

Dont stop on crossing (Q's).

Don't intimidate or beckon.

Zebra crossing

Use MSPSL routine when you approach any type of crossing.

Infra red scanner holds light on red until crossing is clear.

Have same light sequence as normal traffic lights

Puffin Crossing

Toucan Crossing

For use by both pedestrians & cyclists
